

ProTEC<sup>™</sup> Humidity Protection for Motels & Hotels

*HVAC Filter*

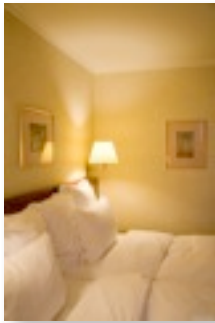

*PTAC Filter*

*Styles and colors subject to change*

## Refresh Your Rooms... Naturally!

*Nature can help you remove harmful excess room humidity and odors.*

Excess humidity in your Guest rooms, and in your building, can wreak havoc on your property, your budget and on your guest comfort. Sometimes fighting this problem can seem like an endless battle... until now!

**You now have a solution.**

ProTEC™ Humidity and Odor Protection filters are designed to fit inside your room PTAC units and/or building's HVAC units and will capture harmful moisture vapor and odor molecules. Using all natural and safe minerals, our filters are proven effective in removing harmful excess humidity that contributes to mold, mildew and odors.

### Why use ProTEC™ filters in your units?

- ✓ You'll have fresher rooms and happier, more comfortable guests.
- ✓ Affords better management of your smoking rooms.
- ✓ You'll have less mold and mildew problems.
- ✓ Less labor hours spent on cleaning problem areas.
- ✓ Less money spent on cleaning supplies and air fresheners.
- ✓ Less lost revenues from having too many out-of-service rooms.
- ✓ Makes your PTAC and HVAC units more efficient.
